

Fall Plays (1 and 2)

Hey, kids, let's put on a show (or 2)! Play 1 is for ages 8-10 and Play 2 is for ages 11 and up. The titles of these short plays are to be decided by the students, who will have a hand in writing them!

Putting on a play is an exciting acting experience for performers of all levels! Through the use of a scripted play, students will improve their stage technique and learn to explore and inhabit specific characters. Not to be confused with our Fall Musical, the Fall Plays are all-acting, and requires no singing/dancing.

Stage performance is a proven tool for developing self-confidence, poise, and presentation skills.

The class will learn about all the aspects of putting on a play, including costumes, props, and sets, while preparing to perform their play at the end of the semester in our Fall Recital.
